

ONE-EIGHTY Features and Integration Setup

The ONE-EIGHTY eStore offers a fast, convenient process to request the setup of system features as well as integrations with our Inventory, Sales Export and Lead partners.

To add features or integrations to your ONE-EIGHTY site, a **Corporate Officer from your dealership, with the authorization to sign the CDK GLOBAL Master Service Agreement**, must complete the authorization process below. If your dealership does not have a specific list of people with this authority in place with CDK GLOBAL, please see the list of titles below that are generally accepted as having the authority to allow vendor access to dealership data.

If your title is not authorized, you would like to see a demo of the process, or you need any other assistance with these instructions, please contact CDK eCommerce Customer Support at **877.483.9171, option 3 (DealerSuite), option 5**. If you do not know your login and/or password, please use the "Forgot Login" or "Forgot Password" options on the DealerSuite login screen.

If you don't have a login, please create one by clicking **Create New Account** and then contact CDK eCommerce Customer Support at 877.483.9171, option 3 (DealerSuite), option 5 to validate your eStore access.

Please note, you must be completely logged out of DealerSuite and using Internet Explorer 9.0 or below as your browser before beginning this process.
